

# FREESTYLE

## MANUFACTURER WARRANTY

Freestyle® panels are high quality, certified products manufactured and distributed by Soundtect. Soundtect manufacturer's guarantee carries a 10 year warranty for all Freestyle® products, assuring it's buyers that the product meets all properties noted in the guarantee as well as committing that all Freestyle products are free of any manufacturing defects.

This guarantee does not include product discoloration - due to environmental conditions outside our control such as UV exposure and products staining due to M&E equipment such as AC or local environment conditions.

Soundtect products are not suitable for external conditions or internal extreme conditions of heat or cold, environments that may be subject to high levels of humidity and or contain aggressive elements such as acids, chlorines, etc.

This guarantee is not applicable to any defects caused by mistreatment of the panels such as abuse, normal wear and tear, dilapidation or failure to provide basic maintenance where required.

Soundtect Panels are manufactured under strictly controlled manufacturing facility. Using 100% Polyester with up to 70% Recycled Content, Soundtect panels are free of chemical additive, safe, non-toxic, non-allergenic, non-irritant, and certified low VOC.

### Product name

Soundtect Freestyle panels

### Intended use

Indoor decorative wall and ceiling panels, slotted suspended structures

### Manufacturer

Soundtect Ltd., First Floor, 3, Albermarle Way, London EC1V 4JB

### Installation methods

1. Fix to walls with glue
2. Suspend from ceilings with cables supplied by manufacturer

### Evaluation standard

BS EN13501-2007+A1:2009  
BS EN ISO354:2003  
ASTM, AATCC, CPSD

### Notified Body

Bureau Veritas (HK) Ltd.

### Physical Properties

#### Dimension

2440 X 1220mm X 10mm  
2440 X 1220mm X 20mm

#### Density

10mm  
20mm

#### Thickness

2kg/sqm  
4kg/sqm

### Specifications

- 100% Polyester
- Low VOC
- Up to 70% post consumer Recycled Material
- Certified Fully Recyclable
- Safe
- Non-Toxic
- Non-irritant, non-allergenic
- No red chemicals
- 0% Water waste during manufacturing
- 0% Gas emissions during manufacturing

### Colorfastness to Light

AATCC 16 CLASS 4

### Reaction to fire

EN13501 CLASS A  
16 CFR 1610 CLASS 1  
B-S1,D0

### Total Lead Content in Substrate

EPA3051 (M) & EPA 3052  
- Less than 50 ppm

### Design

Provided by Soundtect Ltd.
